La forza della tradizione e del servizio

C'è tutta l'esperienza, la passione ma anche la voglia di innovare nel repertorio della Rubinetteria Bugnatese, un'azienda dalla solida tradizione familiare che ha saputo resistere negli anni all'evolversi del mercato, rappresentando un punto fisso nella progettazione e nella realizzazione di elementi di rubinetteria per il bagno, con un impegno crescente nel settore cucina.

Fondata nel 1950 da Cipriano Marietta questa realtà si distingue come un punto di riferimento affidabile per grossisti, showroom ed idraulici. Il segreto è che in 60 anni di storia si è sempre segnalata un'attenzione forte al design e alla qualità, curando i minimi particolari di ogni prodotto.

E in un mercato che si è aperto a nuove frontiere, la Bugnatese non ha mai abbandonato la qualità del made in Italy.

The strenght of tradition and of the service

We have put all of our experience, passion and the wish to innovate our products into our new catalogue. Rubinetteria Bugnatese, is a company that has a solid domestic tradition which throughout the years has resisted against the changes in the market and with a fixed point in design and conception of taps for bathrooms and an ever growing engagement in the kitchen area. Founded in 1950 by Cipriano Marietta, this reality is a trustworthy turning point for wholesalers, showrooms and plumbers. Our secret? In 60 years of history, our attention has always focused on design and above all, quality; verifying every minimum detail of each product. A market exposed to new frontiers, our company Bugnatese is proud of the quality and trademark "made in Italy" which has never been neglected.

Nuovi modi di vivere il bagno

Con le sue collezioni Bugnatese rende preziose le sue sale bagno in tutto il mondo contribuendo all'evoluzione costruttiva che va oltre ai requisiti puramente funzionali. Design innovativo, qualità globale e nuovi concetti di spazialità sono gli argomenti apprezzati in ogni luogo del mondo dove i nostri prodotti trovano applicazione. Per Bugnatese la sala da bagno è un luogo ricco di soluzioni innovative e lì i nostri prodotti trovano impegno nel settore residenziale, ma anche ricettivo-alberghiero. Molte sono le strutture ricettive che hanno scelto i nostri rubinetti.

The Bugnatese collections, brings out the glamour in their bathrooms throughout the whole world contributing to the constructive evolution that goes one step more than the purely functional requirement.

Innovation design, global quality, and new concepts of spatiality are the main topics in every site in the world where our products have found application. The Bathroom for the Bugnatese is an area rich of innovative solutions and it is there that our products find a place in the residential sector but also in hotel accommodation. Many of them, are structures that have chosen our taps.

La cartuccia ECOSAVE permette di ridurre notevolmente il consumo dell'acqua. Con il primo step si ha un'erogazione di circa 4 litri al minuto, alzando ulteriormente la leva si ottiene l'erogazione massima di 17 litri al minuto.

The ECO-CARTRIDGE enables the reduction of water consumption. The first locking position gives a water supply of roughly 6 litres per minute; subsequently lifting the lever you will obtain maximum water supply.
